Austin, TX | deneeoliviaboy@gmail.com | GitHub | LinkedIn

Currently as a Software Engineer I am aiming to find work that is dependable and remote, can be part time or full time. I have experience in healthcare and tech, am a quick learner, and detail oriented.

SKILLS

- Programming Languages: JavaScript, HTML5, CSS, Python, React
- Frameworks: Express.js, Node, Django
- Databases: MongoDB, PostgreSQL

EXPERIENCE

Software Engineering Immersive | **General Assembly** | Remote | Dec 2021 – March 2022

Successfully completed 500+ hours of expert-led instruction in JS, CSS, HTML5, Node Express, MongodDb/Mongoose(+more) and hands-on learning of essential fundamentals and the industry's most in demand technologies. Developed projects, including:

- [Brew Tour](): Built with React - users can search and find breweries close by, visit websites and get directions. Users can also save visited breweries in a passport.
- [Tables of Contents](): Built with Node/Express, and Mongoose/MongoDB - full stack app allowing users to add, edit, and categorize recipes.
- [I Do Two](): Built in Django, PostgreSQL, and bootstrap - a niche resale website built for brides/grooms reselling items/apparel for a wedding, helping to reduce cost and waste.
